Abstract

Abstracts must be submitted electronically.

Deadline for submission of abstracts is April 3, 2010. PRIOR to preparing your abstract for electronic submission, please read the abstract preparation and submission guidelines. A sample abstract is available on the website.

Please avoid the use of special Asian fonts in the main body text, figures, charts, and tables of the abstract submission.

Instructions for Electronic Submission

Paper acceptance will be based solely on the information provided on the 2-page abstract submitted. Promises of upcoming results will be ignored.

Only electronic submissions will be accepted. Do not email files or mail hard copies to the conference office.

In order for your paper to receive a full review, the following information MUST be entered on the website along with your submission:

Title of paper, name, complete mailing address and phone, fax and email of first author.

Names, affiliations, city, state, country of additional authors
Person to whom correspondence should be sent, if other than the first author.

Authors are asked to submit a two-page abstract on a4 format that emphasize their findings. The font size for the body of the text must be 10 point.

Each page should have at least 2 cm left and right margin and 2 cm top and bottom margin. Double column format is preferred.

Excessive photo reduction of figures and poor legibility will negatively impact paper acceptance.

Please make sure that your figure shows clear contrast in black & white printing. It is better to avoid bright color.

Please upload your abstract in PDF format via the conference submission website.

Conclusions

The conclusion goes here.

Acknowledgment

The authors would like to thank...

Fig. 1. Figure caption font size also should be at least 9pt. Reviewer cannot read too small font when it is printed out. Use dark color gives good contrast when it is printed out in black/white for paper review
